**DETAILED ACTION**

***Allowable Subject Matter***

1. Claims 1-2, 10, 12-24 renumbered as claims 1-16 are allowed.

2. The following is an examiner's statement of reasons for allowance.

Prior art of record fails to teach or fairly suggest a call pick system and method wherein each independent claim (i.e. claims 1, 10 and 19 renumbered as claims 1, 8 and 11) requires, *inter alia*, analyzing digits dialed from a call pickup subscriber to determine if there is a match to a call pickup feature code so as to determine if subscribers belong to a same call pickup group and searching the states of the subscribers in response to the match and displaying caller identification information to the called pickup subscriber telephone so that subscribers belonging to the same call pickup group can answer the call from the caller as recited in independent claims (1, 10 and 19 renumbered as claims 1, 8, and 11) and depicted in figure 3.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
